If Congress will get rid of itself the people will breathe easier.

HUGH O'DONNELL'S reception to General Snowden was considerably like a fly approaching a spider.

NEW JERSEY will go Republican in November, as the Democratic ballot box stuffers will all be in the penitentiary before that time.

It is hard for any state to match Pennsylvania's militia force, thanks to the late General Hartranft. We are proud of our soldiers.

OUR young, good looking friend, James F. Burke, of Pittsburg, who has many warm friends in this county, has been made temporary secretary of the National Republican Committee.

HE is a hustler and is rapidly pushing to the front.

HOMESTEAD laborers claim that they are not Anarchists because "they have carefully protected Carnegie's property." Their "protection" was so perfect that even the owners of the property were not allowed to take possession of it.

LIEUTENANT TOTTEN is to the front once more and says that he is undismayed at the failure of his predictions to predict. In fact, he says, the predictions didn't just mean what they said, but there was an esoteric undercurrent, a sort of a Browning obscurity to them that made them mean just the opposite of what appeared on their face. He now says that he intended to convey the fact that the date he set was the beginning of the end, and that the finish of the end is at some indeterminate future. He points to the number of disasters and disturbances that have occurred since March 29th as a proof of whatever he did intend to predict. There has been enough happened in the past quarter to prove anything that might be set up in the way of a theory, but there have been a similar number of occurrences in other years and the world is still spinning.

OUR SAFETY.

Among the tests of efficiency of a body of troops is the readiness and speed with which it can be mobilized from a condition of wide separation.

The massing of 6,000 state troops at Homestead within a little over twenty-four hours, and of a reserve corps at Mt. Gretna of 2,000 men, was a proof of the excellence of the organization of Pennsylvania's national guard that well repays all the trouble and money that has been expended in bringing about the end. The guard is not only well equipped, but it is available, and that is one of the prime considera-

tions, for when the militia is wanted, it is wanted quickly. Moreover, the troops that are gathered together are troops to whom the use of the gun is familiar; they have an average of marksmanship that was wholly unknown in the national guard of a half a dozen years ago, and are all the more formidable antagonists. From a military point of view, the manoeuvres at Homestead are most important as putting to the test the result of the work that has been done to get together a body of troops that would be reliable and with a minimum of the faults generally alleged against volunteer troops. So far, none but the best reports have come of the efficiency and steadiness of the men. It is to be hoped that the occasion will not arise for them to try their fighting metal, but the people of the state are not alarmed lest the guard will fail at the critical moment. Should the occasion unfortunately arise, Pennsylvania is every promise that Pennsylvania will have her heroes of '61, as well as of '61. But there are no less opportunities for honors there is no conflict. Obedience to orders, and temperate and careful conduct will redound as much to the glory of the guard as bravery in battle.

STABBED WITH A BAYONET.

A Drunken Militiaman in Pittsburg Fatally Wounds an Old Veteran.

PITTSBURG, July 19.—David Lester, of Company A, 14th Regiment, N. G. P., stabbed Frank Calhoun with his bayonet on Grant street, near Fifth avenue, in the morning.

The affray is the outcome of a night's carousal that Lester and Howard Hook indulged in during the entire night.

They went along Grant street insulting every person they met, and brandishing their bayonets in the faces of passers-by.

They entered the rooms of Undertaker Behnhart, singing and very noisy. Mr. Behnhart rushed upon them. This they complied with, but renewed the noise outside the building.

They defied arrest, but when Behnhart telephoned for an officer the drunken men started off.

When they reached Devore's undertaking establishment, where Calhoun is employed, the latter advised Lester to be more careful with the bayonet he was thrusting about.

Lester, with a vile exclamation, plunged the weapon into Calhoun's stomach.

Calhoun fell without a struggle. Mr. Behnhart rushed upon him again, but was caught by bystanders.

After a hard fight Lester and Hook were arrested.

Dr. McKelvey, who attended Calhoun, says the wound is very serious; the stomach was torn and the liver penetrated by the bayonet and he has no hope of Calhoun's recovery.

Calhoun is 54 years old, a member of the G. A. R., and has a family.

Lester lives in the 32d Ward and is 26 years old.

Lester and Hook were deserters from the camp.

A BORGIA OF THESE DAYS.

Several Children Poisoned at Tonawanda By a Fourteen-Year-Old Girl.

TONAWANDA, N. Y., July 19.—A young Borgia has been discovered here in the person of Ella Holderidge, aged 14 years, daughter of Franklin Holderidge.

Last Wednesday Mrs. Luman Eggleston went to Buffalo, leaving her daughters, Susie and Jennie, aged 10 and 4 years respectively in the care of a neighbor, Mrs. Garlock.

During the afternoon Ella Holderidge came to the Garlock House with something mixed up in the cover of a tin box. Some of this she fed to the Eggleston children and to the six-year-old son of Mrs. Garlock, telling them it was cocoa.

Shortly after the children were taken violently ill and Dr. Edmonds was called. He relieved them and the eldest Eggleston girl related the incident of the mixture fed to them.

An investigation showed that the children had been given "rough on rats."

The Holderidge girl would give no reason for her conduct. She was taken before a justice and committed to the Limestone Protectorate at West Seneca.

There was much speculation concerning the death of 13-year-old Zoena Sturmer, daughter of a neighbor of the Holderidges, which occurred July 8, and in the light of what has transpired it is suspected she was also given a dose of poison.

She was apparently in perfect health until about 5 o'clock of the fatal day, when she was taken suddenly and violently ill and died at 10 o'clock. Her case puzzled the doctors, who thought it was a case of indigestion or cholera infantum.

Her body will be exhumed and examined for poison.

The plague of breaking lamp-chimneys is abroad in the land.

There are two sorts of chimneys; brittle and tough. Ninety-nine in a hundred are brittle. The worst are imported from Germany. The best are Macbeth's "Pearl-top" & "Pearl-glass."

Two sorts as to workmanship; fine and coarse. The fine are Macbeth's "Pearl-top" and "Pearl-glass." The coarse are rough and out of proportion; misfits and misshapen; they do not make a good draft; they smoke.

Two sorts as to glass; transparent and gray. "Pearl-top" and "Pearl-glass" are clear, fine and tough—not tough against accident—tough against heat.

Call for "Pearl-top" or "Pearl-glass" chimneys.

IT WAS A STRANGE LOVE

Life of Alice Mitchell, Who Killed Freda Ward.

SHE IS DECLARED TO BE INSANE.

Her Trial is Now Taking Place in Memphis, Tenn.—Her Father Breaks Down When Called as a Witness—One of the Most Curious Cases on Record.

Memphis, Tenn., July 19.—The trial of Alice Mitchell on her plea of present insanity, has been begun in the Criminal Court here. This trial grows out of the murder of Miss Freda Ward by Miss Mitchell, who cut her throat from ear to ear with a razor, and wounded her sister, Jo Ward.

The first witness was Alice Mitchell's father, Robert Mitchell. In relating the story of the girl's life, he wept bitterly when he spoke of his wife's insanity at the time her first child was born, and his emotion was so great that he was compelled to desist for a few moments. The hypothetical story of Alice Mitchell's past, in which her infatuation for Freda Ward and the killing is told, was submitted to some of the most eminent physicians in the country, and upon the facts therein related they are asked their opinion as to the subject's insanity. Among those whose judgment is called for are Dr. Belot of Paris, Dr. Hammond of Washington and Dr. Calendar, superintendent of the insane asylum in this State, who testified as an insanity expert in the trial of Chas. J. Gutteau, the murderer of President Garfield.

The life history of Alice is most strange. From a child she took no delight in the pastimes of girls, and delighted in marbles, tops and baseball and other boyish pastimes. She would ride bareback, boy fashion, and could not be induced to learn to sew or wash. She was unmusical, and was unequal in the manifestation of affection.

She had no intimate acquaintances or child sweethearts. After she was grown she had no beaux, and took no pleasure in the society of men. At the change from girlhood to woman's estate she met Freda Ward, and loved her from the first time she saw her. The attachment was mutual, but was far stronger in Alice than in Freda. Freda took no pleasure in the sports that Alice delighted in, her instincts and amusements being feminine. Time made their love deeper, and when Freda went to Goldstadt to live, over two years ago, Alice visited her, and they were together, together continually, but were often seen in each other's arms.

In December, 1890, Freda visited Alice, and then the latter conceived the idea of taking her own life and that of Freda. She bought laudanum, and one night Freda opened her eyes and beheld the girl sweetheart standing over her with a bottle in her hand, preparing to give her its contents. The next day she accompanied Freda to the boat, and, going to a store-room, Alice swallowed the contents of the bottle.

She finally recovered and assigned as a cause for this act that she saw Freda and Harry Belger and Ashley Kosselle together, and she meant to end her existence and leave Freda free to become the wife of the choice of the young man named. Soon after she entered the lists against the two young men and became a suitor for Freda's hand. In 1891 she proposed marriage. She repeated the offer three times, and to each Freda replied agreeing to marry her.

In January, two weeks before she killed Freda, the latter surreptitiously sent her a letter, swearing eternal devotion. On Jan. 25 she followed the two Ward girls to the Custom House in company with Lillie Johnson. Jumping from her buggy she ran down the levee, caught Freda around the neck and cut her throat, killing her at once. Never since the day of the deed has she expressed any regret for the act.

On this state of affairs the physicians were asked their opinion as to her present sanity. It is understood that Dr. Hammond concludes that she is insane, as also does Dr. Belot of Paris. Dr. Calendar of this State says she is what is known as progressively insane, and intimates that in time she will become a driving idiot.

A Railroad's Progress Stopped.

WILKESBARRE, Pa., July 19.—The Wilkesbarre and Eastern Railroad, now building, which is supposed to be backed by the Pennsylvania Company, has had its progress stopped by the Reading Railroad. Early yesterday morning a gang of men in the employ of the Reading arrived on the scene and laid tracks on the new road bed, after which a large force was stationed there to protect the property. The Wilkesbarre and Eastern people are collecting a force of men, and a conflict may ensue.

Reported Edison Invention.

PARIS, July 19.—A story is published here to the effect that Edison has invented an electrical machine which will destroy whole towns at a distance of 30 miles from it, and has sold the invention to the German government. A professor in the University here, it is said, wrote of the matter to Edison a short time ago, and Edison replied that he was not animated in what he had done, by any wish to aid the enemies of France.

Elkins to Be Nominated for Governor.

WASHINGTON, July 19.—A Parkersburg, W. Va., special says that information has been received there to the effect that Secretary of War Elkins is desirous that the Republicans of West Virginia tender him the nomination of the party for Governor this fall. The dispatch further says that Internal Revenue Collector White says that the nomination will go to Secretary Elkins without opposition.

Rev. Mr. Wilson Resigns His Past.

NEW BRUNSWICK, N. J., July 19.—Rev. G. J. Wilson, the story of whose romantic marriage to Mrs. Gieby, nee Elliot, who had refused him twenty years ago, was told in February, has resigned as pastor of the George's Road Baptist Church. His reasons are that his wife is anxious to return to her home in Canada. Mrs. Wilson has an independent fortune.

Thomas Neill-Cremas on Trial.

LEONARD, July 19.—Thomas Neill-Cremas was arraigned at the Bow Street Police Court before Sir John Bridge, shortly before noon, on the charge of murdering Matilda Clover by administering to her certain pills containing strychnine. He was remanded.
